

Biology Factsheets Plans for 2019/2020

15 new Biology Factsheets are published annually:
5 in September 2019, 5 in January 2020 and 5 in April 2020.

The 2019/20 titles will be chosen from the following:

Action Potentials	Interactions between Loci and Autosomal Linkage
Applications of Gene Sequencing	Investigating Stomata
Calibration of Eyepiece Graticules	Muscle Contraction
Carrying Out Serial Dilutions	Organelles
Coronary Heart Disease – New Research	Plankton
Developing a Peanut Vaccine	Reintroduction of Wolves
Dihybrid Crosses and Phenotypic Ratios	Telomeres
Gram Negative and Gram Positive Bacteria	The Lymphatic System
High Altitude Adaptation in Humans	The Three Domains of Classification, Particularly Archaea
Homeostasis, Negative Feedback, Osmoregulation and Hormone Action Involved In Urine Production	Useful Biotechnological Products
How to Present Tables, Graphs and Biological Drawings	

Biology Factsheets are written by experienced authors and senior examiners to support the most recent specifications and provide definitive guides to the major facts, concepts, and issues that feature on A Level specifications. Factsheets include exam-style questions with answers, along with examiners' hints and comments.

Your subscription also includes access to the archive of 369 Biology Factsheets, plus access to every other A Level Biology resource that we have available including PowerPoints, Questions and Answers and Interactive Products.

All resources are site-licensed, meaning that every student and member of staff in your institution will have access to this growing resource.
