

Biology Factsheets

Plans for 2020/2021

15 new Biology Factsheets are published annually:
5 in September 2020, 5 in January 2021 and 5 in April 2021.

The 2020/21 titles will be chosen from the following:

Anaerobic Respiration and Decay	Phylogeny
Analysing the Cardiac Cycle Using Wiggers Diagrams	Sepsis
Biology Along an Endoscope	Sickle Cell Anaemia
Cell Fractionation and Ultracentrifugation	Smoking Versus Vaping
COPD	The Biology of Ibuprofen
Forensics	The Blood Clotting Cascade
Homeobox Genes	Thyroxine
How to present tables, graphs, biological drawings and cite references in a report of practical work	The Three Domains of Classification Particularly Archaea
Investigating Stomata	Using the t test
Obesity as a Genetic Problem	

Biology Factsheets are written by experienced authors and senior examiners to support the most recent specifications and provide definitive guides to the major facts, concepts, and issues that feature on A Level specifications. Factsheets include exam-style questions with answers, along with examiners' hints and comments.

Your subscription also includes access to the archive of 385 Biology Factsheets, plus access to every other A Level Biology resource that we have available including PowerPoints, Questions and Answers and Interactive Products.

All resources are site-licensed, meaning that every student and member of staff in your institution will have access to this growing resource.
