Chemistry Factsheets are written by experienced authors and senior examiners to support the most recent specifications and provide definitive guides to the major facts, concepts, and issues that feature on A Level specifications. Factsheets include exam-style questions with answers, along with examiners' hints and comments.

Your subscription also includes access to the archive of 312 Chemistry Factsheets, plus access to every other A Level Chemistry resource that we have available including PowerPoints, Questions and Answers and Interactive Products.

All of our resources are site-licensed, meaning that every student and member of staff in your institution will have access to this growing resource.
